Poly Studio R30 USB Video Bar

Featuring

Never miss a moment

Poly DirectorAI smart camera framing works behind the scenes to keep you framed how you want-whether that's switching between people speaking, following a presenter, or a close up view of everyone in the room. Keep everyone engaged and involved.

Impeccable noise reduction

Poly NoiseBlock AI and Acoustic Fence Technologies reduce background noise and provide an interference-free audio experience. Minimize distractions, such as keyboard typing, or nearby conversations so you can focus on collaboration.

Quick and effortless setup

Swiftly set up your Poly Studio R30: just two cords are needed. Plug in the power and connect your PC via USB and you are ready to go. Remember you may want to connect your PC to the monitor, which would require a separate HMDI cable.

Clear resolution

Say goodbye to grainy, blurry videos that make it hard to focus and connect. Our stunning 4K resolution, provides you with lifelike visuals that capture every expression, gesture, and nuance for a truly engaging meeting experience.

Bring everyone together

Gather the team without feeling cramped. The impressive 120-degree field of view allows everyone to be seen. This wide angle eliminates the need for camera adjustments or awkward seating arrangements, making it perfect for small meeting spaces.

Rich voice clarity

The powerful integrated speaker delivers rich, crystal-clear audio, enabling participants to hear every word with clarity. The advanced speaker ensures that even the softest-spoken voice is amplified, making meetings more productive.

Capture every voice

Equipped with an advanced multiple microphone array, the Poly Studio R30 picks up the voices of every participant and ensures they are heard clearly and accurately. This allows for a more natural and engaging conversation.

Compatibility

USB connectivity ensures compatibility with the video conferencing platform of your choice. You get the same great video quality, smart camera tech and audio innovations no matter what platform you use.

Secure and flexible mounting

Equipped with an included monitor clamp, the Poly Studio R30 easily attaches to a variety of monitors, offering optimal positioning no matter the configuration of your room. You can also move or adjust as needed without any tools required.

Optional remote control

Pair your device to an optional remote for easy control of your meetings. Adjust the volume, control your microphone, adjust camera framing and more, all from an intuitive remote control.

Bluetooth® versatility

Bluetooth® pairing allows for more flexibility in how you control your meetings and use your device. Bluetooth® pair to an optional remote for better meeting control, or pair to your phone to use your device as a speakerphone.

Simplified management

Monitor, manage, and update your Poly Studio R30 from anywhere via Poly Lens cloud-based device management software. Included Wi-Fi allows you to manage the device using Poly Lens even when it is not connected to a PC.
